

## Services Information Poster

### Minor Surgery (above 18 only)

Minor surgery is done with one of our General Practitioners (GP).

The minor surgeries we offer include:

- Skin lesions
- Fluid removal
- Abscess drainage

### Steroid Injections for Joints (above 18 only)

Steroid injections are administered by a healthcare professional and can be used to treat problems such as joint pain and arthritis.

### Contraception Clinics

Our clinicians can discuss a range of contraceptive choices available to you, along with advice and information on the route you would like to take.

**To book, ask at reception today or contact us using the information below**
